transmission  
Soft starter  
Drive control  
Cables & Wires

#### robotics

Industrial robots  
Robot controls  
Robot programming  
HMI operating devices  
software  
Power supply  
Drive technology

#### Electrical components

Relay  
Protect  
Switch  
Cables & Wires  
Clamps  
Housing  
Bus connector  
Fieldbuses

Do you have excess stocks of spare parts for automation technology? Find out more about our purchase here.

## From the superfluous to the creation of value

Our purchase program gives decommissioned industrial electronics a second chance to be used profitably.

### Purchase process

#### Offer

You send us a list of your surplus items. In order to process your request more quickly, we ask for the type designation, pictures and your price expectations.

#### editing

We will check your offer and give you quick feedback. If you wish, we can take care of the dismantling and shipping of your goods.

#### Payout

After receiving your goods, the agreed amount will be transferred to your account within 24 hours.
